

FEB. 2.

JOHN HALL, BORROVAH.  
ROCK CLIMBING.

8.00pm.  
NAT ALLEN

Nat has kindly offered to give his very entertaining lecture on general rock climbing around Britain and the Continent. It must be true to say that within the Oread, Nats rock climbing experience is second to none, so especially all you younger members here is a lecture you cannot afford to miss, its guaranteed to be both interesting and amusing. Please try and be there for 8.00pm prompt.

FEB. 13/14.

WELSH HUP.

C. RADCLIFFE.

I dont know what Chris is planning for this weekend but I suppose the activities will be dictated by the weather as is usually the case in Wales at this time of the year. With any luck we may get a recurrence of the summer weather experienced on the Roaches meet. See Chris, at the Wilmot, for hut bookings and lifts.

FEB. 20/21.

BEESTON TOR.

P.B. SCOTT.

I think it would be a good idea to camp in the field at the George-Alstonfield in the middle of February. If there is 6 feet of snow you'll have to ski to the crag. As the crags face south it is likely that even in the event of snow some sunbathing and climbing will be had at Beeston. See you Saturday morning, and in the George Saturday evening. New or shy members who haven't been before, see me in the Wilmot or ring Sandiacre 4941.

FEB. 27/28.

DEEPALE.

C. RUSSELL.

This meet will again be held at the campsite at Deepdale Hall farm, which of course is owned by our old friend Tony Browne, at grid ref 398144 (o.s. Lake District Tourist Map) From the top of Kirkstone Pass descend towards Ullswater on the A592, and about 1 mile north of the end of Brotherswater a telephone kiosk will be seen on the left, followed by a bridge over Deepdale Beck. Turn sharp left just over this bridge into a narrow lane and the first gate on the left leads to the campsite. Although fine rock climbing is available on Dove Crag, Hutaple and others at the heads of Dovedale and Deepdale together with easy stuff on Eagle Crag in Grisedale, the area really comes into its own for hill walking, especially under snow conditions. The Western side of the valley, from Hart Crag to Helvellyn will already be well known, but I can also recommend a trip to the High Street side, possibly including a descent to the remote head of Haweswater, this being one of my own favourite walks. Anyway I hope the attendance will be as good as last year when everyone had a good weekend in spite of the weather.

MARCH 2. Dont forget to leave this night free to attend another indoor meet- details will be in the next circular.

MARCH 5.

Well for those who live in Notts. Its on your doorstep, through Stapleford and its on your left as you leave Risley.
